

Destroying Workers' Rights and Unions

Project 2025 will decimate labor unions across the country and severely injure the middle class by limiting worker's abilities to exercise their right to join a union.

Project 2025 calls on Congress to "Consider Whether Public-Sector Unions are Appropriate"

Congress should also consider whether public-sector unions are appropriate in the first place. The bipartisan consensus up until the middle of the 20th century held that these unions were not compatible with constitutional government. After more than half a century of experience with public-sector union frustrations of good government management, it is hard to avoid reaching the same conclusion. Project 2025 mandates Secret Ballot Elections

In short, the card check procedure sidesteps many aspects of democratic decision-making that free and fair elections conducted by secret ballot are supposed to accomplish. Notably, the general counsel of the National Labor Relations Board has recently proposed an esoteric legal theory that card-check decision-making is required under the law, basing this theory on an old NLRB case, Joy Silk, even though the Supreme Court has repeatedly rejected mandatory card-check recognition.

- *Discard "card check." Congress should discard "card check" as the basis of union recognition and mandate the secret ballot exclusively. [Project 2025 - Mandate for Leadership, Page 602-603]*

In 2024, MAGA Extremists in the state legislatures engaged in similar attacks on unions and working people in Georgia, Idaho, Louisiana, Missouri, New Hampshire, and Utah.
